Unity Worldwide Ministries invites you to attend a livestreamed adventure on Friday, April 24, 2020, at 3 p.m. PST. This virtual gathering will focus and inspire you with powerful messages from the leaders and founders of our major New Thought organizations.

Some of the most moving and powerful voices ever to influence the New Thought community come together to express a spiritual force that inspires your individual life and empowers social uplift. Division, injustice, and violence have no place in the new society emerging in this transformative moment catalyzed by a pandemic that affects us all. Please be present to affirm our collective commitment to a world that recognizes the sacred interdependence of all life.

Individuals and families form communities and society. Every human being has something to contribute and the right to be nurtured and supported. NEW THOUGHT is calling in its unified power now. The ripple effect in our collective consciousness is activated. There is a global tide rising up to awaken the shared humanity that transcends the illusion of our differences.
