

August 21, 2019

Greetings friends, colleagues and members. We recognize that many of you may have questions regarding recent changes at Unity Worldwide Ministries (UWM). We ask that you hold UWM leadership in your prayers and have patience as they take the necessary steps to realign the leadership team. As UWM leadership has more information to share, they will be forthcoming and transparent.

May we all join in affirming they are divinely guided and that spirit is in the midst of this change. Here are the most recent updates on the announced changes:

- Given the recent departures of the two highest officers of Unity Worldwide Ministries, the boards of both Unity Worldwide Ministries and Unity World Headquarters (UWH) have agreed to press pause on the One Unity project for the time being.
- The joint boards have agreed to postpone the project indefinitely until the audit findings are reviewed, and the UWM board can thoroughly review and evaluate its operation and determine its leadership needs going forward.
- Our two organizations remain committed to creating a structure that houses the functions of both organizations, and we agree the UWM review and evaluation need to be completed and prayerful consideration applied in determining next steps.
