

Administration, Finance, and Governance

Member Services provides guidance and support in best practices for the business of ministry. This includes: finances, budgeting, bylaws, policies, procedures, and organizational development.

Credentialing for Unity Ministers and Licensed Teachers

Our credentialing services guide and assist those interested in deepening their commitment to share the Unity message. We assist you in the application process, guide you through each step of credentialing, and celebrate with you when you obtain your Unity license or ordination.

Ethics Review System

Unity Worldwide Ministries Ethics Review System (ERS) is a compassionate and supportive peer review process which explores allegations of ethical violations. Ethical reviews are conducted by members of the ERS Ministry Team which is supported by the Director of Member Services.

Member Services

Member Services cultivates relationships and a feedback-rich environment with Unity ministries and leaders. Through leading-edge services and resources we collectively prosper and evolve in spiritual community.

The Member Services Team is the area of Unity Worldwide Ministries that supports the work being done by Unity ministries and leaders around the world. We are dedicated to embodying the purpose statement above, and finding ways to serve, support, and collaborate with our member ministries and leaders.

Evolving Ministries

This area of Member Services was formerly called Ministry Expansion. In light of the immense cultural change in our world, we are now using the term Evolving Ministries. We support the creation of new ministries—traditional and alternative—and we support all ministries in continuing to engage the question: How can we most effectively share our message in our current culture?

Ministry Development Team

This area of Member Services provides UWM trained and certified consultants to assist your ministry in cultivating a learning environment in which the organization is continuously developing its capacity to function from a place of wholeness. We have two types of consultants: Ministry Wellness Consultants facilitate trainings and processes on a one-time or short-term basis; Transition Specialists serve as intentional interims, serving in a ministry for 1–2 years and preparing the community for new leadership.

Ministry Transitional & Employment Services

Member Services supports both member ministries and member ministers in the transitional process, assisting in saying goodbye gracefully, and guiding you through the tenderness of the in-between times. Our employment process includes support in all aspects of employment: writing and reviewing resumes, preparing for interviews, preparing postings, negotiating contracts, and stepping into the new adventure together.

Pastoral Support for Unity Leaders

Choosing to serve as a Unity minister or licensed teacher is a sacred call. We honor those who have answered this call, and recognize that this work often stretches us. Member Services is committed to cultivating relationships with our leaders and finding ways to nurture you in your work of nurturing others.

Spanish-Speaking Services

A number of our Unity members are Spanish-speaking and we are eager to support our Spanish-speaking ministries and leaders. This includes translation of materials into Spanish, access to a Spanish-speaking employee at UWM, and Spanish interpretation at our Unity People's Convention.

Worldwide Services

We live in an increasingly interconnected and interdependent world, and it is time for us to live into the term “worldwide.” Worldwide Services is beginning to explore what it means to cultivate relationships around the globe, create clarity about what it means to be a worldwide presence, and develop ways to maintain a coherent Unity identity across different cultures.

Youth & Family Ministry

We celebrate the presence and vitality of the youngest members of our Unity communities through the development of comprehensive youth and family programs which allow youth of all ages to discover and express their uniqueness as expressions of God.
