Description

Sacred Safety is about keeping children, teens, and adults safe. It focuses on having plans in place that help to create an environment where spirituality can be explored without threat of harm. Having consistent, well thought-out guidelines for which staff and volunteers are trained and held accountable reduces the ministry’s liability.

Join us for an exploration of:

- Needed policies, procedures and practices
- Building and grounds safety
- Safe and age appropriate classroom spaces
- Protection from abuse
