

October 29, 2018

Dear Friends in Unity,

My heart is filled with gratitude for the love, caring, and compassion you have given to our Unity Church in Redding and me following the serious Northern California Carr Fire.

As many of you know, my home burned down, one of 1100 homes destroyed in our community of 89,000 residents. In our congregation, four families lost their homes. Now that the first wave of shock has passed, we are seeing depression and PTSD. We have many therapeutic and healing circles taking place.

I have often wondered how much faith I really have. This event taught me that I have plenty! I know with certainty that God is always present and available. I trust that as we each walk through the healing process, something great will have been birthed.

With your prayers and financial gifts, we have had enough to help those in our congregation and to share with the greater community. Everyone has been blessed through your generosity.

Being a part of the Unity movement is a foundation for my life. Relying on our principles, using the power of prayer, and being supported with friendship has sustained me.

Thank each of you with deep love.

Lovingly,
Carolyn Warnemuende
Spiritual Leader
