

## Board Prayer — March 2020

Wherever we are at this moment, the fascinating and beautiful Universal spirit of God connects us heart-to-heart in prayer.

Focusing on disconcerting external, appearances may bring up in us varying degrees of fear within us. So, for this brief moment in time, we train our attention inward to the center of Truth, where all overwhelm is quelled and doubts become quiet.

Peace awaits our arrival at the center of our being, gently encompassing us in its margin-less breadth and circumference. From this space of peace, we experience ourselves as pure love—love that transcends limiting imperfect thoughts, fills empty spaces, and kneads the hard places into softness.

From this space of peace, the decisions and choices we make, in astutely fulfilling our leadership responsibilities, parallel whatever is most conducive to meeting the needs of Unity's diverse community of leaders and iteration of ministries.

We release attachment to a specific outcome and trust in Divine guidance and Divine order to align us with whatever is necessary to fulfill our holy assignment, and with what is in keeping with the highest and best for all.

In deep gratitude, and with energised faith, we release these words into the atmosphere and expectantly witness their swift and complete manifestation.

And so it is. Amen.
