A Brief History of Unity Education

Unity had its beginning in the troubles of a 19th century American couple, Charles and Myrtle Fillmore. Myrtle had been diagnosed with terminal tuberculosis. Charles had chronic pain and a withered leg, the result of a childhood accident. They struggled to make ends meet as they raised their three sons in the “semi-wild west” of Colorado, Missouri and Texas. Myrtle was determined to find a way to recover from her illness while Charles, despite his physical challenges, worked industriously to make a living in the “boom or bust” real estate market of the day.

The couple, seeking relief, attended a lecture that changed their lives. The lecturer taught about a “New Thought” philosophy, which was healing and helping people through affirmative prayer. One of his affirmations struck a chord in Myrtle and led her to experiment with the effects of spiritual affirmative thinking on her body. After much inner work, Myrtle recovered and began to help others with healing. Charles too followed an inward journey that led a connection with Spirit and a “Higher Mind.” As Christians, the couple connected their own healing work with the teachings of Jesus Christ and came to believe and teach what they called “Practical Christianity” and “Unity.” The word “Unity” represented for them the ideal and spirit of their life mission: unity of science and religion, unity of all people in a spirit of love, and unity of humanity with the Divine.

The Fillmores began their spiritual work with a prayer healing ministry, informal teaching, and publication of a magazine, originally called *“Modern Thought,”* first published in 1889. Through their magazine, the Fillmores began a “Society of Silent Help,” a prayer community with members all over the United States. Once they were inspired to call their work “Unity,” “Modern Thought” became *“Unity Magazine”* and the Society of Silent Help was renamed “Silent Unity.” Silent Unity evolved into a 24/7 prayer ministry call center, located at Unity Village. Local ministries and individuals still join with Silent Unity in prayer. Silent Unity has received millions of calls and countless unsolicited testimonials to answered prayer. It also has published the popular daily devotional magazine *“Daily Word”* for nearly a century. “Unity Magazine” continues in publication and Unity has expanded publishing activities to include books, pamphlets and CDs.

The informal teaching of the Fillmores quickly evolved into a school: “The Unity School of Christianity,” teaching their understanding of Practical Christianity to neighbors and others. Over time, the local Silent Unity prayer groups became teaching centers and then Sunday meetings – in effect, churches. A demand developed for trained Unity leadership, teachers and ministers, so the Unity School began programs to prepare people for such leadership. Originally the Unity leadership program offered a correspondence course by mail and “Intensives” which were taught in live two week sessions in Kansas City.

After World War II, some veterans who aspired to become Unity Ministers requested a full-time program so they could use their GI educational benefits for ministerial education. From the late 1940’s to 2016 there was a full-time Ministerial program at Unity Village as well as a program for spiritual development and Licensed Teacher education. The Association of Unity Churches (now called “Unity Worldwide Ministries”) incorporated, in part, to provide placement of Ministers into churches and to do Ministerial Education. The Association operated the program from 1967 until 1982. The education program was then transferred to the Unity School of Christianity (now called “Unity World Headquarters”). In 2016 the education program was transferred back to Unity Worldwide Ministries to operate as today’s online education program, returning to its original form of mostly distance learning plus “Intensives.”

The basic principles of Unity have remained at the heart of the education program through all the institutional changes. There is a spirit of Unity people that is inclusive, non-judgmental, forgiving and open. Individuals in Unity tend to be individualistic in their thinking and approaches to spirituality and belief; yet all are in Unity because they resonate with the basic principles and the spirit of the community. Now Unity Worldwide Spiritual Institute continues the education tradition, principles and spirit of Unity.

Educational Philosophy

Unity Worldwide Spiritual Institute (UWSI) operates on the principle that education is a primarily a process of drawing forth knowledge and potential from within the consciousness of the student. The UWSI education process honors the inherent wholeness and wisdom within each person.

The Ministerial and Religious Studies (M&RS) courses are meant and designed to be more than just “head” or intellectual knowledge. They are intended to support critical thinking, individual exploration, and deepening and maturing of spiritual understanding and practices. Major intents of Unity’s ministerial education are to support individuals in developing the consciousness and skills of emotional and spiritual maturity and to build skills for successful ministry.

UWSI seeks to provide high quality education through using best practices for online instructional design and Accelerated Learning methodology. We also aim to make our programs as accessible and affordable as possible in conjunction with holding to the highest possible standards of education. In keeping with these purposes, we provide most course delivery online while offering “intensives” through on site live course work. This “blended learning” approach is necessary to assure that students have significant live human interaction that is crucial for emotional and spiritual maturity and as preparation for spiritual work.

In the process of education there is a shared responsibility among students, faculty and administration. Administration is responsible for providing an effective educational environment. Faculty is responsible for supporting learning through sharing of expertise and resources for learning. Students are responsible for their own motivation, openness and doing the work necessary to succeed in the learning process.

Course Delivery

Blended Learning: Blackboard Virtual Classrooms and Onsite Intensives

Unity Worldwide Spiritual Institute strives to make our programs accessible and affordable, while offering a high-quality and practical educational experience. We seek to support students' spiritual development and prepare students to be effective and successful spiritual leaders in the Unity movement. To attain these objectives, we have instituted a "blended learning" approach in our programs.

Blended learning consists of two types of course delivery: online and onsite.

The online course delivery allows teachers to teach and students to take courses without relocating. Teachers in online programs often serve as adjunct faculty while working full-time in other careers; this approach keeps operation costs low while providing access to a wider range of professionals located all across the United States and potentially in other nations. Meanwhile, students can take courses full-time or part-time while maintaining their employment and home base. This approach makes education more affordable and accessible than it is when campuses must be physically maintained.

On the other hand, there are aspects of preparation for spiritual leadership that cannot be delivered with high effectiveness through exclusively online courses. Aspiring ministers must speak to physically present listeners and interact with people in a personal face-to-face context. People skills are more fully developed and assessed in extended interaction that is not available through purely online education. Community spirit develops more easily and fully in personal interaction than in virtual space. For these and other reasons, UWSI has an in-person element of education we call "Intensives." Intensives are week-long programs in which students attend classes at Unity headquarters. The Intensives are offered twice a year and provides students the opportunity not only to interact in person with each other and faculty, not only to make presentations in a live in person context, but also to visit the historic and beautiful Unity Village campus, home of Silent Unity, Unity publications and, for over a half-century, home to Unity education programs.

Accreditation

We hold our program to high standards of academic, spiritual and financial integrity. The officers and Board of Unity Worldwide Ministries (UWM) have oversight of the UWSI program to assure that integrity. The Executive Director of Education and UWM Executive Leadership Team are committed to meeting educational standards appropriate to a graduate seminary and spiritual development program.

The primary reasons schools seek official accreditation are to attract students, to make students eligible for Federal education loans and to be competitive with similar educational institutions. UWSI offers scholarships to defray student costs and is also far more affordable than most graduate schools. We are one of the very few "New Thought" ministerial schools and have a much larger network of ministries than any similar program, so we are already competitive in the particular type of education we offer.

Unity has been preparing men and women for ministry for a century, without official accreditation. Unlike many accredited institutions, Unity Worldwide Ministries assists ministerial graduates in finding placement in positions and offers continuing education to support them for success. For a century, Unity graduates have been achieving fulfilling careers as ministers in local ministries, hospital chaplains and in various alternative ministries. Because of our long history of positive results, we have no immediate plans to pursue “official accreditation” through the long and expensive process of private enterprise accrediting commissions.

Unity Licensing and Ordination

Unity Worldwide Ministries (UWM) governs the process of licensing and ordaining Unity ministers. The process includes admissions evaluations for entering the “ministry path” and periodic License and Ordination Committee interviews.

It is recommended that students apply for admission to the Licensing and Ordination (L&O) Unity ministry path before beginning Ministerial and Religious Studies (M&RS) courses and that they take no more than 42 credit hours of M&RS courses at UWSI before applying for admissions to the Licensing and Ordination ministry path.*

For more information about the Licensing and Ordination Unity Ministry Path admissions process, contact the Credentialing Department at 816-434-6843 or visit <http://www.unityworldwideministries.org/become-minister>.

***Students who begin courses prior to acceptance to the L&O Ministry Path will not complete the credentialing process until after graduation from UWSI**

Ministerial and Religious Studies

The UWSI curriculum has been designed by a team of Unity ministers and academic professionals to provide sound and thorough education for the multifaceted work of ministry. Many courses in this program were developed to provide a scholarly approach to subjects also found in university and seminary religious studies programs, so that both prospective ministers and those who wish to attain a Unity conferred Master of Divinity degree will have a solid academic background. In addition, many courses are based on current research in personal or ministry development. Finally, the Unity teachings are the basis of some courses and are incorporated into many others.

The opportunities through UWSI Ministerial and Religious Studies include:

- Master of Divinity
- Diploma in Unity Ministry
- Non-degree Program
- Continuing Education

The *Master of Divinity (M.Div.)* is a graduate degree level program in religious studies. Entry into this program requires a Bachelor's Degree. Participants in this program may apply also for admission into the ordination path.

The *Diploma in Unity Ministry* consists of the same courses as the M.Div. This program does not require a Bachelor's Degree but does require completion of an Academic Demonstration of foundational skills needed to be successful with Master's level coursework. It is full education to prepare for ordination and placement in Unity ministry.

The *Non-Degree Program* is available to anyone interested in taking graduate level courses on an audit basis without earning a degree or diploma. Interested individuals may take courses marked as "open" in this catalog. **Any prerequisite requirements for a particular course must be fulfilled prior to registering for the course.**

Continuing Education is designed for credentialed Unity leaders who want to delve more deeply into special areas of study, feel inspired, freshen their perspectives and skills and expand their resources.

Other students may determine the nature of their internships with UWSI's M&RS Student and Internship Facilitator. Location of internships will be arranged by the student. The internship content will be agreed upon between the internship sponsor and UWSI. Both content and progress will be monitored by UWSI.

Master of Divinity and Diploma in Unity Ministry

Elective Course Descriptions

*All electives will be offered **only** when sufficient demand exists and priced to offset the cost of presenting the course. Recognizing the electives course will be dynamic from year to year, the following list reflects the most popular of elective courses previously offered by Unity Institute.*

Course Name	Credit Hours	Enrollment
--------------------	---------------------	-------------------

Historical & Theological Studies

HTS 600 Science and Religion	2	open
-------------------------------------	---	------

Religion is primarily concerned with spiritual dimensions of reality, while the scientific method is primarily concerned with the physical dimensions of reality. Historically, science has sometimes challenged concepts of the physical world held by religious doctrines regarding the relation between the spiritual and physical dimensions. The ongoing human striving for a comprehensive view of life seeks a worldview which includes both spiritual and scientific dimensions. After first reviewing the history of religion-versus-science conflicts, students will examine new evidence from the physical, biological and social sciences, which supports the universality of spiritual Truth.

HTS 605 Readings in Western Spirituality	2	open
---	---	------

Outside of officially canonized scriptures, the Western spiritual tradition includes influential writings of mystics and metaphysicians. Those writings have shaped interpretation of scriptures, theological perspectives and spiritual practices as religion and spirituality have evolved over the centuries. This course offers a series of studies selected from those non-canonical writings. An in-depth concentration on writings and authors who represent a school of thought (or an era) will be studied on a rotating basis.

HTS 610 Theology of Health and Healing 2 open
The relationship between spirituality and health has a long history, going back at least to ancient Egypt and the earliest Hebrew scriptures. A theological and historical exploration of the concepts of healing, from biblical sources to postmodern writers, is the objective of this course. Studies will include critical analysis of literature on spiritual healing in Unity and New Thought, investigation of similar ideas in mainstream Christian thought and the controversies surrounding historical instances of charlatanism and deceptive practices by faith healers.

HTS 615 Emerson and the Transcendentalists 2 open
Ralph Waldo Emerson has been called both an American Shakespeare and the intellectual father of New Thought. As a leader of the New England Transcendentalist movement, Emerson was at the forefront of the American Idealism, the abolitionist movement, women's equality advocacy and "self-reliant" spirituality. He also had a profound influence on the early New Thought leaders, including the Fillmores. This course offers a comprehensive look at the works of Emerson and also explores writings of other 19th-century transcendentalists including: William Ellery Channing, Theodore Parker, Henry David Thoreau, Margaret Fuller, Bronson Alcott and his daughter Louisa May Alcott.

HTS 620 Theology of Prosperity 2 open
Divine provision for all needs has been part of faith tradition at least since early Judaism. That faith has evolved into the modern spiritual concepts of "prosperity" and "the flow of abundance." Students will engage in a theological and historical exploration of the concepts of Prosperity teaching from biblical sources to postmodern writers. This course encourages critical analysis of Prosperity literature in Unity and New Thought, as well as similar ideas in mainstream Christian thought. Some exploration of Liberation Theology and "Prosperity Gospel" controversies will also be included.

MAS 680 Transpersonal Psychology 2 open
Transpersonal Psychology stands at the interface of psychology and spiritual experience. It is the field of psychology that integrates psychological concepts, theories and methods with the subject matter and practices of spiritual discipline. In this course, students study the development of transpersonal theories, drawing from the cutting-edge theorists such as Ken Wilber and Michael Washburn.
Required Prerequisite: M&RS - MAS 600 - Pastoral Counseling Theory or equivalent.

- MAS 685 Advanced Techniques in Homiletics** 2 open
 Students build upon the knowledge and techniques learned in Homiletics I and II by developing creativity in lesson content and by practicing energetic, engaging delivery of a spiritual lesson. The course explores the critical verbal and nonverbal elements of creating and delivering a clear and powerful message. Students create, deliver and evaluate lessons that are designed to persuade and inspire. *Required Prerequisite: M&RS - MAS 620 - Advanced Homiletics: The Sunday Service or equivalent.*
- MAS 686 Inspirational Speaking** 2 open
 Students will learn to inspire, educate and uplift their congregation or audience. Each student's personal style will be honed and supported while giving suggestions, feedback and consistent practice of their craft. Practical work will include talk preparation, series planning and talk delivery. The many aspects of inspiring a congregation will be discussed and will include but is not limited to: form, duration, content, relevance, accuracy of interpretation, posture, anchoring, gestures, breathing, blocking, call to action, etc.
- MAS 690 Music in Contemporary Church** 2 open
 The three pillars of the Sunday morning ministry service are message, meditation and music. Music is a powerful ministry. Music not only adds to the spiritual experience of the service but also may be the primary reason people come back to the ministry. This course will include understanding the operations of the music department, music's place in ministry growth and handling differences regarding music.
- MAS 695 Writing for the Ministry** 2 open
 From the time of the Apostle Paul, ministers have used letter writing as a way to encourage, advise and comfort those to whom they minister. Spiritual teachers have also used the written word to explain doctrines, speculate about theology, advocate for virtue and record the history of their faith. While written communication is increasingly taking the form of electronic sentences rather than paper tomes, facility in written expression is still an important tool in ministry. This course explores the various written communications that are expected of ministers, from informational emails to letters of condolence. Styles, models and written exercises are emphasized.
- MAS 696 Storytelling and Reader's Theater** 2 open
 From the rhapsodies of ancient Greece to Garrison Keillor, the storyteller has a special role in engaging a listener and conveying a lesson in a dramatic form. This course examines storytelling and reader's theater. It explores the unique and dynamic relationship between a speaker telling a story and his or her audience. Participants will select stories from their personal experiences, shape, rehearse them and share them with the class. Participants will also work in teams to create and perform a reader's theatre script of their choosing.
- MAS 697 Technology in the Emerging Church** 2 open
 Technology is so ubiquitous that we may become obsessed with it or, alternatively, resist using it. From the use of sound and light in Sunday Services, to PowerPoint presentations in classes and meetings, to promoting ministries on the internet and social media, to managing the ministry, technology is pervasive in ministry too. Students will learn about and engage with uses of technology in ministry. They will explore how their vision of ministry can best be achieved through judicious use of the ever expanding field of technological innovation.

MAS 698 Pioneering 2 open
For those with an independent, courageous and entrepreneurial spirit, starting a new ministry can be an exciting and fulfilling adventure. Pioneering a ministry has unique challenges and requires awareness of potential pitfalls and means to establish a new, effective work. Students will explore the strategies for starting or renewing a ministry, study-group, satellite, or alternative ministry. It will include the experience of creating a business plan and the study of successful practices of research and marketing to a pioneer market. The course will use these principles for examining a small ministry renewal

Research Studies

RES 050 Study, Research & Writing Skills 0 open
This course is designed as a supplement for returning students to learn and/or regain the skills that are needed to perform successfully at Unity Worldwide Spiritual Institute. A wide range of skills will be presented and discussed, and there will be opportunities for students to help guide the class to meet their needs. Assignments will be given each week; they are designed to let students apply new skills in their courses at Unity Worldwide Spiritual Institute.

Spirituality and Society

SAS 600 Spirituality and the Arts 2 open
Spirituality has many creative expressions, not only through the word, but also through music and images. This course surveys selected classic and contemporary artistic forms from primal, Asian and Western cultures to demonstrate the intimacy between religion and the arts. Students will develop an appreciation for various forms of art in their personal spiritual life and in congregational leadership.

SAS 605 Exploring Evolutionary Spirituality 2 open
A wide range of evolutionary theories have been derived from a broad spectrum of scientists, philosophers and visionaries. The student is encouraged to critically review, compare and contrast some of these various theories of evolution. The course explores the relevance of each of these theories to contemporary life and Unity ministry. *Recommended: MAS 680 - Transpersonal Psychology.*

SAS 610 Introduction to Integral Spirituality 2 open

Integral spirituality provides a new perspective that expands our perception of reality and provides a fresh motivation for making a positive difference in our world. The concepts of integral spirituality are explored through the works of various integral theorists such as Wilber, Combs, McIntosh, Beck, Gebser and others. *Recommended: MAS 680 - Transpersonal Psychology.*

Scriptural Studies

SCS 605 Sacred Scriptures of World Religions

2

open

The roots of spiritual doctrines and practices are found in the sacred scriptures of the world's religions. Students will explore the nature, function and importance of sacred scriptures within the major religious traditions of the world. After examining the meaning of sacrality and scripture in human religious experience and expression cross-culturally, literary and hermeneutical approaches are used to analyze the specific doctrines, values and ritual practices found in the scriptural writings in the enduring religions of the world.

Spiritual Personal Development

SPD 600 Contemplative Prayer and Meditation Practices

2

open

Contemplative prayer and meditation practices are at the heart of a spiritually oriented life. The inner life can be enriched by exploring a variety of contemplative prayer and meditation approaches from both Eastern and Western spiritual traditions. That exploration can enhance the student's relationship to Spirit and provide tools for assisting others in their spiritual development. Emphasis is placed on the student's personal experiences of each practice. A short contemplative retreat is a required part of this course.

SPD 605 The Art of Spiritual Direction

2

open

Those who are on a spiritual path can profit from the guidance of those who have preceded them; that is the basis of the art of spiritual direction. Students will explore the nature of spiritual direction and be introduced to the skills needed to become a spiritual director. The spiritual journey will be explored within the framework of the relationships one has with self, others, one's culture, the world and nature. *Required Prerequisites: M&RS - SPD 500 - Prayer and Meditation and MAS 605 - Pastoral Counseling Practice internship.*

Independent Study

700 Independent Study (any area: HTS, SCS, etc.)

1-3

open

There are so many possibilities for spiritual exploration and research that no curriculum can provide a course for every possibility; that is the rationale for an independent study course. Independent study of an approved topic not parallel to the content of any other course offering is the purpose of this elective. Because independent studies are "labor intensive" for the faculty member working with one student on a specialized topic, an additional fee will be assessed. The student and faculty member will prepare a syllabus outlining the reading, research and writing requirements for successful completion of the course, to be approved by UWSI's M&RS Student & Internship Facilitator.

The tuition and fees for Unity Worldwide Spiritual Institute are designed to make our programs affordable while also covering the expenses involved in operating the programs. Procedure for Dropping Courses/ Refunds

To drop a course/s, a student must send an email, listing the specific course/s to be dropped to the UWSI Registrar (registrar@unity.org). The date on the original email requesting a course be dropped will be the date used for issuing any appropriate refund. All fees (such as Payment Plan Fee) are nonrefundable.

Note: Only an email to the UWSI Registrar will be accepted to officially drop a course. The following methods will **not** result in an officially dropped course:

- ☒ Phone calls or voice messages
- ☒ Attempts to drop a course through Blackboard

Tuition refunds are given on the following basis:

- ☐ Before term begins: 100% refund
- ☐ Before end of week one: 100% refund*
- ☐ Before end of week two: 50% refund*
- ☐ After week two: no refund*

***Note:** Each UWSI term begins on a Monday and a “week” runs Monday through Sunday at midnight. Course materials are available to students from the first day of each term. If the course’s *Collaborate* (online sessions with an instructor) is not until later in the week, students are still expected and instructed to begin working on course materials from the beginning of the first day of each term. Therefore, refund requests for a dropped courses will be issued according to the above schedule.

Example: To receive a 50% refund, the student must send an email to the UWSI registrar before midnight Sunday during the second week of the term.

Exception Request: Students who feel their individual circumstances warrant an exception from the above stated policies may appeal by an email to Unity Worldwide Ministries’ Executive Director of Education. The appeal should include a statement of the exception being requested, an explanation of why an exception should be granted and appropriate materials to support the request for the exception. The student’s appeal email and attached supporting material are to be emailed to the UWM Executive Director of Education (dfrownfelter@unity.org) within two weeks of submitting the emailed request to the UWSI Registrar. The decision of the UWM Executive Director is final.

Transcript Requests

Federal law requires that all transcript requests be made in writing and include the student’s written signature. Requests for a transcript should also include:

- The student’s name when in attendance and, if applicable, any previous names.
- ☐ Date of last attendance (or degree earned with date of graduation).
- ☐ Date of birth.
- ☐ Name and address where transcript is to be sent.
- ☐ Signature authorizing release of the transcript.

Official transcripts bearing the Unity Worldwide Spiritual Institute seal are sent to the person or place designated by the student. Transcripts are issued in their entirety, and no partial transcripts will be issued. Transcripts will be issued only for those persons whose financial accounts are current and paid in full.

Transcripts from other institutions a student may have attended prior to admission to Unity Worldwide Spiritual Institute, which are held in the student’s UWSI file, **will not** be duplicated or released to students or any third parties for any reason.

Academic Information and Policies

Academic Honesty and Academic Violations of the Code of Conduct

Unity Worldwide Spiritual Institute assumes that all students desire to pursue their academic and transformational work with honesty and scholarly integrity. Students may obtain assistance from others as long as the student submitting the assignment is the author of the work. Activities that have the effect or intention of interfering with the education, pursuit of knowledge, or fair evaluation of a student's performance are prohibited. These include, but are not limited to: cheating, plagiarism, self-plagiarism, facilitating academic dishonesty, and misrepresentation of self or other students. Those students who breach these standards will face sanctions, ranging from course failure to dismissal from the program.

Attribution of Sources and Citations

All papers and assignments produced by students are to meet the standards required for citation and attribution of sources defined by *The Chicago Manual of Style*. Students may find Kate L. Turabian's *A Manual for Writers of Research Papers, Theses and Dissertations*, published by the University of Chicago Press, to be a useful reference.

Self-Plagiarism

Self-plagiarism is a student reusing their own paper, or a modified version thereof, without permission of the instructor. This could mean recycling a paper they previously turned in, or writing one paper to satisfy the requirements of two concurrent assignments. Unauthorized recycling is an act of dishonesty and is unacceptable. To handle this appropriately, check with the current instructor about whether it is permissible to recycle a previously submitted assignment and/or to cite your previously submitted assignment.

Academic Records

A permanent academic record is kept for each student in an academic file (paper and/or computerized) in the Unity Worldwide Spiritual Institute Registrar's Office. All grades earned by the student at UWSI are recorded. The record also shows the credits transferred from other schools that apply toward meeting the student's requirements at UWSI. Credits from other schools that do not meet UWSI degree requirements are not posted.

Within one month of each term, the grades earned and grade point average for the courses in which the student officially enrolled, are recorded. Only courses dropped during the drop period are omitted.

Appeal Process

Appeals for exceptions to academic policies and regulations must be submitted in writing, with documentation, to the Executive Director of Education, whose decision is final.

Appeals involving grades:

Grade disputes must first be discussed with the relevant faculty member. If the issue cannot be resolved with the faculty member, the student may submit an appeal in writing, with documentation, to the Executive Director within four weeks of the faculty member's decision. The decision of the Director is final. Failure to initiate an appeal within the four-week period indicates that the student accepts the decision of the faculty member as final, and the matter is closed. In the event that the Director is also the faculty member involved, the student may submit the appeal in writing, with documentation, to the COO of Unity Worldwide Ministries, whose decision is final.

Appeals Involving a Student's Status in the Program:

Students may be placed on academic probation or academic suspension for failure to meet academic, ethical or other standards in the Code of Conduct.

Probation allows a student to continue coursework at a reduced course load (maximum of six credit hours per 10-week term). If the student is placed on probation during an academic term, the student is required to reduce his/her course load immediately to meet this requirement. Any course(s) is dropped without refund and without the ability to transfer any work to a future term. Ministerial participation in churches will be decided by the faculty on a case-by-case basis. Students will meet with the M&RS Student & Internship Facilitator to develop a plan for improvement. Suspension is a period of involuntary separation from coursework during which time the student has the opportunity to grow through a plan for remediation. If the student is suspended during an academic term, the student is automatically dropped from all of his/her courses without refund and without the ability to transfer any work to a future term.

Appeals of probation and suspension may be presented to the Executive Director of Education in writing, with documentation, within four weeks of receiving official notice of a status change. The decision of the Executive Director is final. Failure to initiate an appeal within the four-week period indicates that the student accepts the decision of probation/suspension as final, and the matter is closed.

Appeals Involving a Student's Dismissal from the Program:

Unity Worldwide Spiritual Institute reserves the right to dismiss a student from the program if his or her academic performance, attitude, and/or behavior do not meet the standards prescribed in the Unity Worldwide Spiritual Institute Catalog and the UWSI Code of Conduct and the Unity Worldwide Ministries Code of Ethics.

Class Cancellation

Course offerings are subject to enrollment minimums. Unity Worldwide Spiritual Institute reserves the right to cancel classes for which there is insufficient enrollment.

Family Education Rights and Privacy Act

Unity Worldwide Spiritual Institute complies with the Family Education Rights and Privacy Act (FERPA). FERPA affords students certain rights with respect to their academic records. They are:

- The right to inspect and review the student's academic records within 45 days of the day Unity Worldwide Spiritual Institute receives a request for access. Students should submit to the Registrar a written request that identifies the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected.
 - The right to request the amendment of the student's academic record that the student believes is inaccurate or misleading. Students should submit a letter to the Registrar clearly identifying the part of the record that they believe is inaccurate or misleading, stating why it is inaccurate or misleading, and asking for the record to be changed. If UWSI decides not to amend the record as requested by the student, the student will be notified of the decision and advised of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing process will be provided at that time.
 - The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests.
- ☐ The right to file a complaint with the U.S. Department of Education concerning alleged failures by Unity Worldwide Spiritual Institute to comply with the requirements of FERPA. The office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Ave., SW
Washington, D.C. 20202-5920

Grading Policies

All grades earned by the student in M.Div. and Diploma in Unity Ministry studies become part of his or her permanent record and will be shown on every transcript of credits issued by Unity Worldwide Spiritual Institute. Grades for completed academic work receive the following grade points per credit hour/continuing education unit:

A = 4.00	E = 0.00
A- = 3.67	P = Pass (Satisfactory Internship)
B+ = 3.34	F = Fail (Unsatisfactory Internship)
B = 3.00	I = Incomplete (see section below on incomplete grades)
B- = 2.67	WP = Withdrawal Passing
C+ = 2.34	WF = Withdrawal Failing
C = 2.00	AU = Successful audit (see section below on auditing a class)
C- = 1.67	WA = Withdrawn or unsuccessful audit (see section below on auditing a class)
D = 1.00	
Note: (3.00 minimum cumulative GPA is required to maintain good academic standing.)	

Graduation requires a 3.0 cumulative grade point average or above on a 4.0 scale. Grades below B – may not be used to satisfy requirements for required courses, and grades below C will not be used to satisfy elective requirements. A maximum of six hours of a grade of C may be counted toward a degree. Courses may be repeated in regularly scheduled terms (not as independent study). In such cases, both grades are posted. Only the repeated grade will be calculated in the term and cumulative grade point average. Credit for a specific course will be given only once toward graduation requirements.

Grade point average:

The Unity Worldwide Spiritual Institute grade point average (GPA) is calculated using the following formula: GPA equals the total grade points from courses taken at UWSI divided by the total credit hours (or units). Total grade points is the sum of the products of the credit hours (or units) of each course taken at UWSI multiplied by the grade point value of the grade earned in each course. Total credit hours (or units) are the sum of the for-credit hours taken at UWSI. The UWSI GPA is calculated using only courses taken for credit at Unity Worldwide Spiritual Institute. Transfer credit does not affect the UWSI GPA.

Incomplete grades:

Individual faculty members have the option of assigning the grade of “I” (Incomplete) in situations involving serious illness or emergency that are beyond the control of the student. To receive the grade of Incomplete, a student must petition the faculty member before the end of the course, stating the reasons for the incomplete grade. The request for an Incomplete, listing requirements for completing the course and the date the course must be completed, must be signed by both the student and the faculty member. The faculty member, on this form, will assign a “replacement grade” that the student will receive if the course is not completed by the deadline. Students have up to two months from the last day of the term to complete the course. Failure to do so will result in the assignment of the “replacement grade.” Students facing extraordinary situations may petition the M&RS Student & Internship Facilitator and request an extension of another month to complete the course.

Satisfactory academic progress:

Students who earn a grade point average equal to or greater than 3.0 per term will be considered making satisfactory progress. A student whose cumulative GPA falls below 3.0, or whose term GPA falls below 3.0 for two consecutive terms, will be placed on academic probation and limited to a maximum of six credit hours per 10-week term and a maximum of three credit hours per three-week term. Further unsatisfactory progress will result in a review of the student's eligibility to continue in the program.

Auditing a course:

Any student may audit a course. All students must enroll in Unity Worldwide Spiritual Institute. Regular attendance in the class is required of all auditors. Auditors should talk with faculty about anything else that is required of them in each class.

A course being audited may not be changed for credit after the last day to add a class. Not all courses are available for audit.

Students who successfully complete an audit will receive a grade of AU. This indicates regular attendance and involvement in an audited course. Academic credit is not received and hours are not computed in the grade point average.

Students who withdraw from or who are unsuccessful in the audit receive a grade of WA. This indicates that regular attendance and/or requirements were not satisfactorily fulfilled for an audited course.

Withdrawal:

If it is necessary for a student to withdraw from a course after the last day to drop, the student must complete the *Request for Withdrawal* form (available from the Registrar.) Withdrawals after the last day to drop are approved only in the case of emergencies beyond the student's control. Withdrawals are official when the form has been completed, approved by the Executive Director of Education, and returned to the Registrar. A grade of WP (Withdraw Passing) or WF (Withdraw Failing) will be given depending upon the students' grade total on the approved withdrawal date. Students who are administratively withdrawn after week seven will receive the grade earned for the course or courses. Provisions for continuing the program will be made on an individual basis, in consultation with the Director.

Enrollment and Registration Policies for Ministry and Religious Studies Program

Enrollment in a course is not official until the proper registration forms have been processed by the Registrar and all financial obligations have been paid or approved arrangements for payment have been made. No one is permitted to attend a course for which he or she is not officially registered unless approved by the Executive Director of Education.

Adding and dropping course(s):

A student may add a course through the first week of a 10-week term. A student may drop from a course without academic penalty through the fifth week (with the permission of the UWSI Registrar.) If a student withdraws from a course after the fifth week, the course is entered on his/her transcript with the designation of WP (Withdraw Passing) or WF (Withdraw Failing). The Unity Worldwide Spiritual Institute website contains exact dates for adding or dropping classes.

To receive a refund for a dropped course tuition refund, a student must send an email, listing the specific course/s to be dropped to the UWSI Registrar (registrar@unity.org). The date on the original email requesting a course be dropped will be the date used for issuing any appropriate refund. All fees (such as Payment Plan Fee) are nonrefundable. **Note:** Only an email to the UWSI Registrar will be accepted to officially drop a course.

Student Responsibility and Academic Advising

Students are responsible for knowing and abiding by the policies, procedures, and requirements set forth in the *Unity Worldwide Spiritual Institute Catalog*. They are to meet graduation requirements from the catalog that is in effect at the time of their initial enrollment in the M&RS program at UWSI. Students wishing to change to a subsequent catalog may do so provided they are enrolled when that catalog is in effect, and they submit a written request to the Registrar. Students re-enrolling or completing graduate requirements after being out of school for more than one year are to meet graduation requirements from the catalog in effect at the time they re-enroll.

The student is responsible for seeing that all courses are taken according to the program requirements laid out for his or her program of study and that all degree requirements are met. The M&RS Student & Internship Facilitator acts as advisor to all students. The academic advisor's role is to provide guidance concerning the student's academic program and to verify the accuracy of the course selections. The ultimate responsibility, however, for knowing the program requirements and proceeding to satisfy these requirements in an orderly and timely manner is the student's.

Students are expected to govern their conduct by the accepted standards of behavior as outlined in the Unity Worldwide Spiritual Institute Code of Conduct. If a student shows continued violation of the Unity Worldwide Spiritual Institute Code of Conduct or Unity Worldwide Ministries Code of Ethics, UWSI reserves the right to dismiss him or her from the program.

Withdrawal from School and Leave of Absence

There are two types of withdrawals: official and administrative. An official withdrawal begins when the student initiates the withdrawal process. An administrative withdrawal occurs when Unity Worldwide Spiritual Institute initiates the process for nonattendance, nonpayment, academic offenses, violation of other UWSI policies, or extraordinary extenuating circumstances.

Unity Worldwide Spiritual Institute reserves the right to withdraw a student from a course (or courses) if the student does not meet his/her financial obligation or has not agreed to a payment plan.

If it is necessary for a student to withdraw from the program, a course, or from all courses during a term after the last day to drop, the student is to discuss the matter with the M&RS Student & Internship Facilitator. In addition, **the student must request and complete the *Request for Withdrawal form (available from the Registrar – registrar@unity.org)***. Withdrawals after the last day to drop are approved only in the case of emergencies beyond the student's control. Withdrawals are official when the form has been completed, required signatures obtained, approved by the Executive Director of Education, and returned to the Registrar. **Note: Withdrawals by telephone will not be accepted.**

Leave of Absence Policy

Students who are unable to complete a term or expect to be absent one or more regular terms (Fall/Winter/Spring/Summer) must submit a request for Leave of Absence form (available from the Registrar's Office). Students who wish to be considered for a Leave of Absence must be in good academic standing and must be making satisfactory progress. A Leave of Absence will be granted only for documented circumstances beyond the student's control, such as acute illness or a family emergency. Students who fail to register for two consecutive regular terms may be administratively withdrawn from Unity Worldwide Spiritual Institute.

All Unity Worldwide Spiritual Institute students returning from a Leave of Absence must receive approval of their schedules from the M&RS Student & Internship Facilitator before being permitted to register. The Director may also require documentation to show that the conditions necessitating the leave (medical or otherwise) have been resolved.

After any Leave of Absence, the Program requirements and academic standards that are currently in effect at the time of re-entry will be applicable. With an official leave or withdrawal, an exception for the seven-year program completion requirement may be made. Upon re-entry, courses taken more than seven years prior will be reviewed for applicability to current coursework.

Alcohol and Drug Abuse and Testing

It is the policy of Unity Worldwide Headquarters and Unity Worldwide Spiritual Institute to be concerned about the abuse of alcohol and drugs because of the negative impact on the student’s life. Furthermore, the hazards posed to other students and employees by an individual under the influence of alcohol or drugs are a matter of great concern requiring timely and decisive action.

Alcoholic beverages (unless approved by the Executive Committee for a special event pursuant to the Unity Special Event Alcohol Policy) and any type of drug not prescribed by a medical doctor, including illegal substances, are strictly prohibited on Unity property.

A student will be subject to immediate disciplinary action if he or she is:

- Carrying or possessing these substances, whether on his or her person or in Unity Worldwide Headquarters or Unity Worldwide Ministries property.
- Purchasing, selling, delivering or receiving these substances on the premises.
- Failing to cooperate in the efforts of Unity to investigate drug or alcohol use, including submitting to drug and/or alcohol screening tests upon the request of Unity Worldwide Spiritual Institute.

If the student volunteers the information that he or she has an alcohol or drug problem, he or she will be encouraged to get help at his or her expense. Policy of Nondiscrimination

In keeping with the inclusive nature of Unity teachings, it is the policy of Unity Worldwide Spiritual Institute that Unity will be free of discrimination based on race, color, religion, sex, national origin, age, sexual orientation, and/or disability. Students making good faith reports may be assured that their concerns will be addressed without fear of retaliation.

From time to time, candid, posed, and staged photographs and/or videos of students are taken. Students sign media releases as part of enrollment, releasing Unity Worldwide Headquarters and Unity Worldwide Ministries from any and all claims. These photos and/or videos may be used at the discretion of Unity Worldwide Spiritual Institute in promotional materials without compensation to the students. Promotional material may include publications in print, Internet and audiovisual media, brochures, and press releases.

Inspections may be conducted at any time at the discretion of Unity World Headquarters or Unity Worldwide Ministries personnel. Therefore, students should not bring any item onto Unity property that they do not want to undergo an inspection.

Faculty who have reason to believe a student may pose a possible threat to himself or herself, his or her fellow students, or may possess, be using or be selling illegal drugs on Unity premises are responsible for initiating a follow-up with the Executive Director of Education.

Sexual and Other Unlawful Harassment

It is the policy of Unity Worldwide Spiritual Institute to provide a study environment that is free of discrimination and unlawful harassment.
