Course Description

Beneath the literal sense of the Bible, interpreters have for over 2,000 years discerned allegorical meanings related to divine truths and spiritual realities. Unity's approach to scripture is connected to that stream of thought, which has at times been "mainstream" but more often "esoteric" and mystical. Students will experience the rewarding and surprisingly practical process of the Unity way of Bible interpretation. They will learn a step-by-step method for metaphysical interpretation and application of the meanings to their lives. Students will metaphysically interpret selected passages from Hebrew Scriptures.

Course Learning Objectives

Upon completion of this course, learners will be able to:

- Identify and metaphysically interpret the main Hebrew Scripture characters NOTE: Metaphysically means the interpretation of things, words and events beyond what is written. It is going beyond the form and physical circumstances to access a spiritual truth.
- Explain the metaphysical approach to interpretation and know how to use the process so that the student can metaphysically interpret a story on their own.
- Relate the metaphysical interpretation of the Hebrew Scriptures to their spiritual journey and to life.
