Course Description

This advanced course examines the prosperity teachings of Charles Fillmore and Eric Butterworth, as well as contemporary teachings. Students explore the broader meaning of prosperity beyond “material things” to discover their own beliefs about money, abundance and lack. Students create practices for healing limitations they hold about prosperity, and discover ways to address their own unexamined, unconscious assumptions about abundance, giving and generosity.

Course Learning Objectives

Upon completion of this course, learners will be able to:

1. Explain the central concepts of Unity prosperity teachings in their own words.
2. Define prosperity, abundance, generosity, giving and receiving.
3. Identify elements in their own consciousness where healing is needed.
4. Demonstrate the use of the central teachings of prosperity.
