Course Description

Self-awareness is necessary for optimal balance and functioning in life. To be self-aware is to realize the dimensions of self and the states of those dimensions. Human beings are more than physical body; they also have spiritual and soul (psyche) dimensions which are equally if not more important than the body. Students will explore the dimensions of self by studying various systems and techniques for self-awareness. They will become more conscious of their attitudes, beliefs and ways of being; symptoms of stress and imbalance; healthy responses to stress and imbalance; and how to integrate spiritual principles to maintain balance and honor all facets of their being.
