I enthusiastically go forward and follow my Divine Understanding to achieve my life purpose.

Divine Understanding deepens and directs my life.

Zootopia - Week 3

Focus is on Divine Will

Watch movie scenes: 11 through 15 - Up to Mayor press conference at City Hall

In this section of the movie, we see what happened in Nick Wilde's childhood when he was a boy scout and how he lost his trust in others around him. This experience led him to not listen to his divine wisdom and divine purpose and shut himself away from society and live a life of crime. It turns out that the knowledge he learned as being a swindler was very helpful as part of the investigation and supported Judy in getting closer to solving the case.

Even though Nick does not have to stay with Judy, something is making him stay on the case and trying to solve the mystery. Nick may have lived his life as a swindler, but maybe, deep down inside of him, he always wanted to do the right thing but did not know how to do it? Even though he had a challenging experience when he was a child, he may have always wanted to have been a strong person, filled with integrity instead of being a swindler.

The difference between Judy and Nick is that when Judy was having a difficult time as she held herself strongly in her Divine Will of becoming a policeman. Nick, on the other hand was not able to hold to his Divine Will and chose to believe the common understanding about foxes.

SOMETHING TO THINK ABOUT: All animals - Preys and Predators - within Zootopia are supposed to all get along and not live according to their natural instincts. When some of the animals are not capable of living according to the agreement and "Go Savage", this breaks the basis of the society. Is it possible for predators to live within an environment where preys are all around them? Now, this is a movie so everything is possible, within the realm of divine imagination. However, what happens when we ask others to live against the very being of who we are?

Affirmations

The Divine breath flows through me and I am a channel for love and healing.

I affirm divine will in my life and everything I need comes to me.

Through my Divine Will, the universe nurtures and protects me at all times and in all places.

Zootopia - Week 4
Focus is on Divine Will

Watch movie scenes: 16 through the end

In the last part of the movie, Judy uses her Divine Will to solve the case. She truly cares about the people who are sick and have “Gone Savage”. She also enrolls Nick’s help as she knows that she can’t do it all on her own.

Judy’s Divine Will is tied with the reason why she wanted to become a policeman: She wants to make a difference in the world and make the world a better place. From that perspective, she activates her Divine Will to push through the various obstacles she faces every day. Her Divine Strength and her Divine Power make such a difference that she solves the case and even Nick wants to follow in Judy’s footsteps and become a policeman.

SOMETHING TO THINK ABOUT: Judy says: Real life is a bit complicated and it is messy we all have limitations and we all make mistakes. So we all have a lot in common. But when we all try to understand each other, the more exceptional each one of us will be. So no matter what type of animal we are, we should try to make the World a better place. Change starts with each one of us and all of us.
